

Guaranteed Analysis

Soluble Potash (K₂O) 29.00%

Derived from
Potassium Acetate CAS #127-08-2

Green-T® Infiltrate-K 0-0-29 is an organic-based potassium acetate that rapidly enters the foliar tissue. Due to its low burn potential, rapid leaf absorption, high potassium plant uptake and slow drying characteristics, applications of **Green-T® Infiltrate-K 0-0-29** result in safer foliar applications and less stress on the plant.

Plants absorb potassium from **Green-T® Infiltrate-K 0-0-29** in much higher proportions than all other potassium sources due to its unique composition with acetates. Acetates, a component of the TCA cycle, have complexing qualities that help stabilize other nutrients with its buffering capacity. Acetates resemble organic acids that release nutrients which may be unavailable.

Green-T® Infiltrate-K 0-0-29 aids in reducing the freezing temperature of water without undue stress to turf. Applications of **Infiltrate-K, 0-0-29** in the spring and fall will reduce the incidence of morning frost for a few days after application.

- Weight per gallon: 11.08 lbs. (5.35 kg)
- Each gallon contains: 3.2 lbs. Potassium
- pH: 8.5

Infiltrate-K 0-0-29

Organic-based Potassium Acetate

Directions for Use:

Greens, Tees and Fine Turf: Apply 2 - 8 oz. per 1,000 sq. ft. (.7 - 2.7 gallons per Acre) of **Green-T® Infiltrate-K 0-0-29** every 14 days in enough water to ensure adequate coverage. Apply as needed, every 3 - 4 weeks to supplement other fertilization programs. Apply **Green-T® Infiltrate-K 0-0-29** throughout the growing season on warm, transitional and cool season grasses.

Fairways, Roughs, Sports Turf and Lawns: Apply 2 - 3.4 gallons per Acre (6 - 10 oz. per 1,000 sq. ft.) of **Green-T® Infiltrate-K 0-0-29** as needed in enough water to ensure adequate coverage.

8 oz	2.7 Gal	237 ML	0.20
10 oz	3.4 Gal	296 ML	0.25

Tank Mixing Information:

Prior to any fertilizer or pesticide application, all spray mixing and application equipment must be cleaned. A quality tank cleaner is recommended. Carefully observe all cleaning directions on the pesticide and fertilizer label. Fill the spray or mix tank at least 3/4 full of water and begin agitation. Add pesticides and/or fertilizers as directed by labeling or in the following sequence:

- 1) Dry flowables or water dispersible granules, 2) Wettable powders, 3) Flowables,
- 4) Emulsifiable concentrates, 5) Water based solutions, 6) Compatibility agents,
- 7) Micronutrients and Fertilizers, 8) Spray adjuvants

Before mixing multiple chemicals and/or fertilizers in the tank, confirm product compatibility by performing a jar test. Be sure to mix with plenty of water.

Caution:

Keep away from children and domestic animals. Avoid contact with eyes, open cuts, or sores. Harmful if swallowed. External: Flood with water. Internal: Induce vomiting. Contact a physician immediately.

Storage and Handling:

Store in a cool, dry place. Keep container tightly closed. Do not add water or other material to the container. Do not contaminate water, food, or feed by storage or disposal. Do not store near acids or other acidic materials.

Store above 32° F. Do not allow to freeze.

Available Container Sizes:

2 x 2.5 gal (2 x 9.46 L) Case
30 gal (113.56 L) Drum
55 gal (208.20 L) Drum
275 gal (1040.99 L) Tote
