

6 Iron

**6% Iron, .05% Manganese
12-0-0, 3.3% Sulfur**

Guaranteed Analysis

Total Nitrogen (N)	12.00%
12% Urea Nitrogen	
Sulfur (S)	3.30%
Iron (Fe).....	6.00%
Manganese (Mn)	0.05%

Derived from Urea, Ferrous Sulfate Heptahydrate, Manganese Sulfate

6 Iron is an Iron, Manganese and Nitrogen complex for prevention and correction of nutrient deficiencies. Iron and Manganese are involved in photosynthetic and respiration systems. It assists chlorophyll synthesis and is used as a reaction catalyst. In turf, iron and manganese produce a deeper green leaf blade. The urea nitrogen enhances the uptake of these secondary and micro nutrients within the plant.

- **Weight per gallon: 10.4 lbs. (4.72 kg)**
- **Each gallon contains:**
 - 1.25 lb Nitrogen
 - .34 lb Sulfur
 - .62 lb Iron
 - .005 lb Manganese
- **pH: 1.5**

Directions for Use:

Greens, Tees and Fine Turf: Apply 2.0 - 4.0 oz. of **6 Iron** with 1.5 - 2 gallons of water per 1,000 sq. ft. (0.7 - 1.4 gallons of **6 Iron** with 66 - 88 gallons of water per Acre) in sufficient water to ensure thorough coverage. Apply weekly or as needed throughout the growing season. Applications should be made in the early or late daylight hours. (Avoid spraying in periods of low humidity or when turf is under severe stress). For longer lasting performance, apply Plant Food **12 Iron**.

Fairways, Roughs, Sports Turf and Lawns: Apply 0.7 - 2.0 gallons of **6 Iron** with 44 - 88 gallons of water per Acre (2.0 - 6.0 oz. of **6 Iron** with 1 - 2 gallons of water per 1,000 sq. ft.) in sufficient water to ensure thorough coverage. Apply every 3 to 4 weeks or as needed throughout the growing season.

Attention: Avoid application to painted surfaces as discoloration may occur. **6 Iron** is corrosive to mild steel, aluminum, and brass. Use only stainless steel or PVC fittings.

Available Container Sizes:

- 2 x 2.5 gal (2 x 9.46 L) Case
- 30 gal (113.56 L) Drum
- 55 gal (208.20 L) Drum
- 275 gal (1040.99 L) Tote

Store above 32° F. Do not allow to freeze.
