1. Identification

Product name: 30-0-0, 90% MSN
Product code: 300090
Other Identification:
- Chemical Family: Aqueous organic salt solution
- Formula: Not applicable-blend

Recommended use: Turf & Horticulture - Inorganic Salt Solution
Manufacturer & Distributor information:
- Plant Food Company, Inc.
  38 Hightstown-Cranbury Station Road
  Cranbury, NJ 08512 United States
- Telephone Information: 1-609-448-0935
- Website: www.plantfoodco.com
- E-mail: pfc@plantfoodco.com
- Contact person: SDS-Regulatory Department
- Emergency phone number: 1-800-424-9300 CCN725928
- Call CHEMTREC Day or Night Within USA and Canada or +1 703-527-3887 (collect calls accepted)
- Other Countries: 1-609-448-0935

2. Hazard(s) identification

Physical hazards: Not classified.
Health hazards:
- Acute toxicity, oral: Category 4
- Serious eye damage/eye irritation: Category 2A
- Specific target organ toxicity, single exposure: Category 3 respiratory tract irritation
Environmental hazards: Hazardous to the aquatic environment, acute hazard: Category 2
OSHA defined hazards: Not classified.

Label elements:
- Signal word: Warning
- Hazard statement: Harmful if swallowed. Causes serious eye irritation. May cause respiratory irritation.
- Precautionary statement:
  - Prevention: Use only outdoors or in a well-ventilated area. Avoid breathing mist or vapor. Wash thoroughly after handling. Do not eat, drink or smoke when using this product. Wear eye/face protection.
  - Response: If swallowed: Call a poison center/doctor if you feel unwell. If inhaled: Remove person to fresh air and keep comfortable for breathing. If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Call a poison center/doctor if you feel unwell. Rinse mouth. If eye irritation persists: Get medical advice/attention.
Hazard(s) not otherwise classified (HNOC): None known.

3. Composition/information on ingredients

Mixture
- Chemical Name:
  - Carbonyl Diamide
  - 1,3,5-triazinan-2-one
- Synonym Common Name:
  - Urea
  - Triazone
- CAS Number:
  - 57-13-6
  - 7098-14-8
- EINECS No.:
  - 200-315-5
  - 230-406-5
NFPA: Health - 1  Flammability - 0  Reactivity - 0

Stop the flow of material, if this is without risk.

Provide eyewash station.

Not applicable.

Methods and materials for Fire-fighting firefighters treatment needed

Indication of immediate medical attention and special General hygiene considerations

Thermal hazards

Respiratory protection

Other

Hand protection

Skin protection

Eye protection

General hygiene considerations

Unsuitable extinguishing media

Not applicable.

Specific hazards arising from the chemical

During fire, gases hazardous to health may be formed. Heating (flames) of closed or sealed containers may cause violent rupture of container due to thermal expansion of compressed gases. Heating causes release of ammonia vapors. Vapors are irritating to eyes, skin and respiratory tract. Heating to dryness may cause the release of ammonia, ammonium sulfate, sulfur and oxides of sulfur (respiratory hazard).

Special protective equipment and precautions for firefighters

Self-contained breathing apparatus and full protective clothing must be worn in case of fire. Keep containers/storage vessels in fire area cooled with water spray.

Fire-fighting equipment/instructions Specific methods General fire hazards

Move container from fire area if it can be done without risk.

Heating this product will evolve ammonia

5. Fire-fighting measures

Flammable Properties:

NFPA: Health - 1  Flammability - 0  Reactivity - 0

Suitable extinguishing media

Not flammable, use media suitable for combustibles involved in fire. Not applicable.

Unsuitable extinguishing media

Not applicable.

6. Accidental release measures

Personal precautions, protective equipment and emergency procedures

Keep people away from any upwind of spill/leak. Keep out of low areas. Keep unnecessary personnel away. Wear appropriate personal protective equipment. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Ensure adequate ventilation. Local authorities should be advised if significant spillages cannot be contained. For personal protection, see section 8 of the SDS.

Environmental precautions

Avoid release to the environment. Contact local authorities in case of spillage to drain/aquatic environment. Prevent further leakage or spillage if safe to do so. Do not contaminate water. Avoid discharge into drains, water courses or onto the ground.

Methods and materials for containment and cleaning up

Stop the flow of material, if this is without risk. Large Spills: Dice the spilled material, wearing gloves, where this is possible. Cover with plastic sheet to prevent spreading. Absorb in vermiculite. Small Spills: Wipe up with absorbent material (e.g. cloth, fleece). Clean surface thoroughly to remove residual contamination. Never return spills in original containers for re-use. For waste disposal, see section 13 of the SDS.

7. Handling and storage

Precautions for safe handling

Do not taste or swallow. Avoid breathing mist or vapor. Avoid contact with eyes. Provide adequate ventilation. Wear appropriate personal protective equipment. When using, do not eat, drink or smoke. Observe good industrial hygiene practices. Wash hands thoroughly after handling. Avoid release to the environment. Do not empty into drains.

Conditions for safe storage, including any incompatibilities

Store locked up. Store in original tightly closed container. Store in a cool, dry place out of direct sunlight. Store away from incompatible materials (see Section 10 of the SDS).

8. Exposure controls/personal protection

Occupational exposure limits

No exposure limits noted for ingredient(s).

Biological limit values

No biological exposure limits noted for ingredient(s).

Provide eyewash station.

Individual protection measures, such as personal protective equipment

Wear eye/face protection. Wear safety glasses with side shields (or goggles).

Eye protection

Skin protection

Hand protection

For prolonged or repeated skin contact use suitable protective gloves.

Other

Respiratory protection

Wear appropriate thermal protective clothing when necessary.

Thermal hazards

When using, do not eat, drink or smoke. Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants.

Respiratory protection

In case of insufficient ventilation, wear suitable respiratory equipment.

9. Transport information

10. Other information

No biological exposure limits noted for ingredient(s).

Provide eyewash station.

Wear appropriate thermal protective clothing when necessary.

When using, do not eat, drink or smoke. Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants.

10. Stability and reactivity

Reactivity: Avoid interaction with heat (flames), oxidizers, acids or alkalis (see details below in this section).

Chemical stability: Material is stable under normal conditions.

Possibility of hazardous reactions: Strong oxidizers such as nitrates, nitrites or chlorates can cause explosive mixtures if heated to dryness.

Conditions to avoid: Temperatures above 120°F (49°C) and below 32°F (0°C).

Hazardous decomposition products: Heating this product will evolve ammonia. Heating to dryness will produce ammonia, ammonium sulfate, sulfur and oxides of sulfur.

### 13. Disposal considerations

| Disposal Instructions     | Collect and reclaim or dispose in sealed containers at licensed waste disposal site. This material and its container must be disposed of as hazardous waste. Do not allow this material to drain into sewers/water supplies. Do not contaminate ponds, waterways or ditches with chemical or used container. Dispose of contents/container in accordance with local/regional/national/international regulations. |
| Hazardous waste code      | The waste code should be assigned in discussion between the user, the producer and the waste disposal company. |
| Waste from residues / unused products | Dispose of in accordance with local regulations. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe manner (see: Disposal instructions). |
| Contaminated packaging    | Empty containers should be taken to an approved waste handling site for recycling or disposal. Since emptied containers may retain product residue, follow label warnings even after container is emptied. |
