### 1. Identification

<table>
<thead>
<tr>
<th>Product name</th>
<th>Humic Acid 70</th>
</tr>
</thead>
<tbody>
<tr>
<td>Product code</td>
<td>FMHUM</td>
</tr>
<tr>
<td>Chemical Description</td>
<td>Granular Humic and fulvic acid derived from Leonardite</td>
</tr>
</tbody>
</table>

**Recommended use**

Agriculture

**Manufacturer & Distributor information**

**Corporate Office**

Plant Food Company, Inc.
38 Hightstown-Cranbury Station Road
Cranbury, NJ 08512 United States

**Telephone**

Information: 1-609-448-0935

**Website**

www.plantfoodco.com

**E-mail**

pfc@plantfoodco.com

**Contact person**

SDS-Regulatory Department

**Emergency phone number**

1-800-424-9300 CCN725928

**Call CHEMTREC Day or Night Within USA and Canada**

or +1 703-527-3887 (collect calls accepted)

**Other Countries**

1-609-448-0935

### 2. Hazard(s) identification

**Physical hazards**

Not classified.

**Health hazards**

Acute toxicity, oral

Serious eye damage/eye irritation

Specific target organ toxicity, single exposure

**Environmental hazards**

Hazardous to the aquatic environment, acute hazard

**OSHA defined hazards**

Not classified.

**Label elements**

- **Signal word**: Warning
  - Harmful if swallowed. Causes serious eye irritation. May cause respiratory irritation.

- **Hazard statement**: Use only outdoors or in a well-ventilated area. Avoid breathing mist or vapor. Wash thoroughly after handling. Do not eat, drink or smoke when using this product. Wear eye/face protection.

- **Precautionary statement**
  - Prevention
  - Response
  - If swallowed: Call a poison center/doctor if you feel unwell. If inhaled: Remove person to fresh air and keep comfortable for breathing. If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Call a poison center/doctor if you feel unwell. Rinse mouth. If eye irritation persists: Get medical advice/attention.

**Hazard(s) not otherwise classified (HNOC)**

None known.

### 3. Composition/information on ingredients

**Mixture**

<table>

4. First-aid measures

Inhalation
Remove victim from contaminated atmosphere. If breathing is labored, administer oxygen. If breathing has ceased, clear airway and start CPR. Obtain medical attention.

Skin contact
Immediately flush with large quantities of water. Remove contaminated clothing under a safety shower. Continue rinsing. Obtain medical attention if irritation occurs.

Eye contact
Immediately flush eyes with plenty of water for at least 15 minutes. Continue rinsing. Remove contact lenses, if present and easy to do. If eye irritation persists: Get medical advice/attention.

Ingestion
Rinse mouth. IF SWALLOWED: Call a POISON CENTER or doctor/physician if you feel unwell. If victim is conscious, give two to four glasses of water and induce vomiting by touching finger to back of throat. Obtain medical attention.

Indication of immediate medical attention and special treatment needed
Irritation of eyes and mucous membranes.

General information
Ensure that medical personnel are aware of the material(s) involved and take precautions to protect themselves. In the case of accident or if you feel unwell, seek medical advice immediately (show the label where possible).

5. Fire-fighting measures

Flammable Properties:
NFPA: Health - 0 Flammability - 0 Reactivity - 0

Suitable extinguishing media
Not flammable, use media suitable for combustibles involved in fire.

Unsuitable extinguishing media
Not applicable.

Specific hazards arising from the chemical
During fire, gases hazardous to health may be formed. Heating (flames) of closed or sealed containers may cause violent rupture of container due to thermal expansion of compressed gases. Heating causes release of ammonia vapors. Vapors are irritating to eyes, skin and respiratory tract. Heating to dryness may cause the release of ammonia, ammonium sulfate, sulfur and oxides of sulfur (respiratory hazard).

Special protective equipment and precautions for firefighters
Self-contained breathing apparatus and full protective clothing must be worn in case of fire. Move containers from fire area if you can do so without risk. Keep containers/storage vessels in fire area cooled with water spray.

Fire-fighting equipment/instructions
Move container from fire area if it can be done without risk.

General fire hazards

6. Accidental release measures

Personal precautions, protective equipment and emergency procedures
Keep people away from any upwind of spill/leak. Keep out of low areas. Keep unnecessary personnel away. Wear appropriate personal protective equipment. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Ensure adequate ventilation. Local authorities should be advised if significant spillages cannot be contained. For personal protection, see section 8 of the SDS.

Environmental precautions
Avoid release to the environment. Contact local authorities in case of spillage to drain/aquatic environment. Prevent further leakage or spillage if safe to do so. Do not contaminate water. Avoid discharge into drains, water courses or onto the ground.

Methods and materials for containment and cleaning up
Stop the flow of material, if this is without risk. Large Spills: Dike the spilled material, where this is possible. Cover with plastic sheet to prevent spreading. Absorb in vermiculite. Small Spills: Wipe up with absorbent material (e.g. cloth, fleece). Clean surface thoroughly to remove residual contamination. Never return spills in original containers for re-use. For waste disposal, see section 13 of the SDS.

7. Handling and storage

Precautions for safe handling
Do not taste or swallow. Avoid breathing mist or vapor. Avoid contact with eyes. Provide adequate ventilation. Wear appropriate personal protective equipment. When using, do not eat, drink or smoke. Observe good industrial hygiene practices. Wash hands thoroughly after handling. Avoid release to the environment. Do not empty into drains.

Conditions for safe storage, including any incompatibilities
Store locked up. Store in original tightly closed container. Store in a cool, dry place out of direct sunlight. Store away from incompatible materials (see Section 10 of the SDS).

8. Exposure controls/personal protection

Occupational exposure limits
No exposure limits noted for ingredient(s).

Biological limit values
No biological exposure limits noted for ingredient(s).

Appropriate engineering controls
Provide eyewash station.

Individual protection measures, such as personal protective equipment
Wear eye/face protection. Wear safety glasses with side shields (or goggles). Wear appropriate thermal protective clothing, when necessary.

Eye/face protection
For prolonged or repeated skin contact use suitable protective gloves.

Skin protection
Wear appropriate thermal protective clothing. Wash contaminated clothing prior to reuse.

Hand protection
In case of insufficient ventilation, wear suitable respiratory equipment.

Respiratory protection
Wear appropriate protective clothing. Wash contaminated clothing prior to reuse.

Thermal hazards
In case of insufficient ventilation, wear suitable respiratory equipment.

General hygiene considerations
When using, do not eat, drink or smoke. Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants.
9. Physical and chemical properties

12. Ecological information

Ecotoxicity
Data not available.

Persistence and degradability
No data is available on the degradability of this product.

Bioaccumulative potential
This product is not bioaccumulative.

Mobility in soil
Not determined

Other adverse effects
Not determined

13. Disposal considerations

Disposal instructions
Collect and reclaim or dispose in sealed containers at licensed waste disposal site. This material and its container must be disposed of as hazardous waste. Do not allow this material to drain into sewers/water supplies. Do not contaminate ponds, waterways or ditches with chemical or used container. Dispose of contents/container in accordance with local/regional/national/international regulations.

Hazardous waste code
The waste code should be assigned in discussion between the user, the producer and the waste disposal company.

Waste from residues / unused products
Dispose of in accordance with local regulations. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe manner (see: Disposal instructions).

Contaminated packaging
Empty containers should be taken to an approved waste handling site for recycling or disposal. Since emptied containers may retain product residue, follow label warnings even after container is emptied.

14. Transport information

DOT
Not regulated as dangerous goods.

IATA
Not regulated as dangerous goods.

IMDG
Not regulated as dangerous goods.

15. Regulatory information

US federal regulations

TSCA Section 12(b) Export Notification
(40 CFR 707, Subpt. D)
Not regulated.

CERCLA Hazardous Substance List (40 CFR 302.4)
Not listed.

SARA 304 Emergency release notification
Immediate Hazard - Yes
Delayed Hazard - No
Fire Hazard - No
Pressure Hazard - No
Reactivity Hazard - No

SARA 302 Extremely hazardous substance
Not listed.

Other federal regulations
OSHA Specifically Regulated Substances
(29 CFR 1910.1001-1050)
Not listed.

Clean Air Act (CAA) Section 112 Hazardous Air Pollutants (HAPs) List
Not regulated.

Clean Air Act (CAA) Section 112(r) Accidental Release Prevention (40 CFR 68.130)
Not regulated.

Safe Drinking Water Act (SDWA)
Not regulated.
