

Iron 5% Glucoheptonate Chelate

Guaranteed Analysis

Iron (Fe)..... 5.00%
5.00% Chelated Iron (Fe)

Derived from
Iron Glucoheptonate Chelate

Green-T® Iron 5% is a high quality glucoheptonate chelate liquid that has excellent foliar action and enters the plant tissue within 12 to 48 hours. Iron acts as a carrier of oxygen required in the production of chlorophyll. It is involved in the photosynthetic and respiration system and is used as a reaction catalyst. Iron produces a “greener” plant tissue. Iron and Manganese work together and are important for consistent chlorophyll development.

The glucoheptonate chelate of Green-T® Iron 5% prevents the micronutrient from binding with other nutrients such as phosphate. By keeping the iron available for an extended period of time, the results are a long-lasting, deep green plant.

- Weight per gallon: 10.5 lbs (4.76 kg)
- Each gallon contains:
.525 lb Iron
- pH: 3.5 - 4.5

Directions for Use:

Greens, Tees, Fairways, Roughs, Sports Turf and Lawns: Apply 1.0 - 3.0 oz. of Green-T® Iron 5% with 1.5 - 2 gallons of water per 1,000 sq. ft. (0.3 - 1.0 gallons of Green-T® Iron 5% with 44 - 88 gallons of water per Acre) when deficiencies are known during active growth period.

Trees and Ornamentals:

Foliar Application: Dilute 10 - 20 oz in 100 gallons of water – spray leaf surface until drip.

Application Rates for Green-T® Iron 5%

Fluid Oz/ 1,000 sq. ft.	Gallons/ One Acre	ML/ 100 M ²	L/HA Litre/ Hectare	Iron/ 1,000 sq. ft.
1.0	0.3	32	3	0.0041
2.0	0.7	64	6	0.0082
3.0	1.0	95	10	0.0123

Available Container Sizes:

- 2 x 2.5 gal (2 x 9.46 L) Case
- 30 gal (113.56 L) Drum
- 55 gal (208.20 L) Drum
- 275 gal (1040.99 L) Tote

Store above 32° F. Do not allow to freeze.
