* Slowly Available Nitrogen from Urea Triazone Solution

Derived from: Ammonium Nitrate, Urea, Triazone, Ammonium Thiosulfate, Calcium EDTA, Solubor, Copper EDTA, Iron EDTA, Manganese EDTA and Zinc EDTA

Green-T® 29-0-0, 50% SRN Calcium, Sulfur & Micronutrients is a cost effective, high nitrogen formula that contains 4 different nitrogen. The quick release ammonium nitrate, urea and ammonium thiosulfate provides rapid turf response, even in cooler weather conditions, while the non-leaching, slow release triazone nitrogen provides long lasting turf response. The chelated micronutrients provide extended micronutrient release since the EDTA chelates prevents them from binding with the soil while keeping them plant available for an extended period.
